All – Assuming we are going to post the air data being collected at Westlake Landfill, I want to bring together people who may be involved in the posting. We need to put together a schedule for making this happen. I think the questions below are some that we need to answer as a group, if you can think of others questions or other people who should be invited, shoot me an email.

1. **Who is/will review the raw data for data quality/validation?**
2. **Who is/will review the data and summarize it for publication?**
3. **Who is/will review the data against pre-determined standards before it is publicized?**
   a. **Who is determining those standards?**
4. **What do we want to publish and who will do these activities –**
   a. **raw data,**
   b. **summarized data, and/or**
   c. **a statement regarding what the data shows?**
5. **Where will the data be published and what will the webpage look like?**
